

ECHO / FRAME & SEAT: The frame for the seat and base is constructed with metal, further reinforced with plywood, and finally covered with polyurethane foam. Seat frame utilizes cross-woven elastic webbing. Curved plywood armrests and backrest are covered with polyurethane foam. CUSHION: Plywood-framed tufted back cushion is filled with high-resilient polyurethane foam. Cushion is not removable. BASE: Plastic glides are affixed for easy and scratch-free maneuvering. UPHOLSTERY: Fabric or leather. Covers are not removable.
